

CTS Guys

1st Round: Aptitude

25 Verbal, 16 Quants and 14 Logical Reasoning

for maths prepare log and probability well rest question will be from profit , % and time and distance can say simple only just log question and probabilities question need more attention and for english there will be 2 passage (8 questions very easy) and 3,4 synonyms and 2 antonyms and some fill in the blanks and for technical prepare data structure like heap sort and tree and complexity and some code snippet only easy one to crack and for last part prepare from verbal rs aggarwal find the odd out and puzzle (like 5 people wear 5 shirt and like 5 things have to solve such question 5 questions will be there so it's most important rest all is fine)

2nd Round : Technical

Prepare Everything From Your Resume, From Objective to Hobbies. Be Confident While Answering

For CS and IT Guys Be Prepared With basic Java and C Questions and Also Coding Part Of Your Project.

For EC and EE and Others Explain Your Project In Detail When Asked and Prepare Basic C Programs Like Palindrome, Swap, Print Prime Number, Etc (Not Sure They'll Ask Only This).

In This Round They'll Check how Good Are You With Those U have Written in Resume And Your Confidence Level....

##Be Confident... That's What They Expect There

3rd Round: HR

Be Active and Speak Actively With HR and Prepare Some Basic HR Questions (Probability for rejection in this round is Less)
